## **APEX INITIATES EQUINITI'S ACQUISITION OF INVIGIA**

Apex Corporate Finance is pleased to announce that it has initiated the acquisition of Invigia Limited ("Invigia"), a leading complaints, case and feedback management software business, for its client, Equiniti Group.

Paul Warren, MD of Apex commented "Acquisitions are an important way for Equiniti to broaden the offering to their strong client base and capitalise on opportunities in new related market sectors".

Invigia provides complaints, case and feedback management software and services for a wide range of clients across the financial services, public sector and broader commercial markets. Invigia will strengthen Equiniti's range of solutions that help clients deal with regulation and change and will add to the services already offered by Equiniti's financial services resource specialist Hazell Carr.

Equiniti is a leading business process services group. They support approximately 1600 of the UK's businesses and public sector institutions, including around half of the FTSE 100. Their core capabilities are centered on complex administration and payment solutions including money transmission, administration and customer interactions.
